The HARBOR DEVELOPMENT COMMISSION is the governing body for New Bedford's harbor and city-owned waterfront properties.

It is chaired by the Mayor of New Bedford with seven other members. The role of the HDC is to support the Port of New Bedford by continually upgrading port resources, preserving its spot as the #1 U.S. fishing port and expanding the New Bedford economy. The HDC manages all the commercial and recreational vessel activity within New Bedford city limits, including the city's entire coastline and harbor. The HDC manages all municipal property on the waterfront, including multiple wharves and a 198-slip recreational marina at Pope's Island. The Commission also assigns moorings within city waters and issues permits for harbor events and use of city-owned waterfront facilities.
